List your first, second, and third choices from the classes listed below.

first:
second:
third:

Indicate the type of work you prefer:

marking assignments
helping with labs/marketing lab reports
no preference

If you have applied or intend to apply for teaching assistant positions other than for the classes listed (e.g. a GE class), supply the following information.

class numbers
total hours/week

email the form and a brief resume listing experience relevant to the courses applied for to enr.ece-dept-head@usask.ca with the subject line "TA application".

Second Term Classes

EE 216	Probability Statistics and Numerical Methods
EE 232	Digital Electronics
EE 241	Introduction to Electric Power Systems
EE 271	Materials and Heat Transport in Electrical Engineering
EE 322	Microwave and RF Circuits
EE 342	Transmission of Electrical Energy
EE 365	Algorithms and Circuits with Finite Precision Arithmetics
EE 382	Control Systems
EE 465	Design of a DSP System
EE 472	Optoelectronics and Photonics
EE 498	Renewable Energy
CME 332	Real Time Computing
CME 334	Network Architecture and Protocols
CME 466	Design of an Advanced Digital System

note: not all classes have available positions
