Basic Job Steps	Possible Hazards	Preventative Measures
General	Inadequate Training	- Before operating any oven, ensure proper training has been received and operator is familiar with safe work procedures
Operation	Burns  Trips	- Always use oven mitts or other hand protection when handling hot items out of the oven - If a pilot light goes out, do not attempt to light it yourself; contact a supervisor  - Never leave drop down oven doors unattended with the door down
Cleaning	Chemical Exposure	- Review <i>Cleaning JSA</i> for detailed safe work procedures for all chemical cleaning procedures
