

GE 490.1 – Innovation Speaker Series

Description

This is a seminar course featuring guest speakers. The guest speakers will present on tech innovation, most often in a Saskatchewan context, but not exclusively. The goal of the course is to inspire would-be tech innovators and to provide them with wisdom and knowledge to help them in their journey.

Note: This course may be taken for credit more than once, provided the topics are different. Please contact the college for permission.
