ENTERING ENGINEERING

HELPFUL THINGS TO KNOW

MATH PLACEMENT TEST
Don't stress if you need help, the Library has tons of supports for you:
https://library.usask.ca/studentlearning/math-help.php

REMEMBER YOUR RESOURCES
Use the Engineering U-START Handbook and your Engineering Registration Guide as you get ready for registration on June 13th.

And don't forget the Engineering Student Centre is always here to help you!
CHOOSING YOUR ENGINEERING ELECTIVES

HOW MANY?

3 credit units in a Jr. Humanities or Social Science elective that you can take in Fall or Winter Term

3 credit units in a Science Elective in the Winter Term

Don't forget to check the Engineering U-START handbook for a list of elective and options

WHEN PICKING YOUR SCIENCE ELECTIVE, IT'S IMPORTANT TO THINK ABOUT WHAT MAJOR YOU ARE CONSIDERING
CREATE A SCHEDULE
Create a sample schedule and write down the Course Registration Number (CRN) for each class in each term and have them on hand when you register on June 13.

HAVE A BACK UP PLAN
Build your schedule early and have a back up plan. Write down the CRNs for your back up plan too!

WATCH FOR ERROR MESSAGES
When you register, watch for error messages.
As an incoming engineering student, you may have completed some course work at another institution that is eligible for transfer credit.
Open your registration guide. We'll walk you through PAWS, what you will see when you go to register on June 13th.
When you register on Saturday, June 13, 2020, the Engineering Student Centre will have people on call to help you if needed.
