

Engineering Professional Internship Program Final Employer Evaluation

The University of Saskatchewan's Engineering Professional Internship Program is designed to provide students with work-integrated learning opportunities that allow for personal and professional development within a professional engineering setting. This final employer evaluation is instrumental in providing the student intern with constructive feedback on their performance in the workplace and outlining areas for development. The National Association of Colleges and Employers Career Readiness Competencies are used as the foundation of this evaluation.

This evaluation should be completed by the student intern's direct supervisor or the person who can best assess the student intern's performance. **Please ensure that this evaluation is reviewed with the student intern.**

It is the student intern's responsibility to submit this completed evaluation through the 'Reporting' tab on the [internship website](#). Should you have any questions, please contact (306) 966-5391.

Company: _____

Student Intern Name: _____

Position: _____

Work Term Dates: _____

Supervisor's Name and Title: _____
